

Thank you for purchasing an Outdoor Revolution product, this product will give years of satisfactory service if basic instructions are followed; our products are designed for durability and for ease of erection.

**\*\*We highly recommend that you insure your awning against storm damage or accidental damage, as the warranty does not cover such eventualities. The manufacturer is not liable for any damage caused to the motorhome or vehicle because of misuse, incorrect pitching or extreme weather\*\***

Spare poles can be purchased to replace broken poles.

Visit the spares section on [www.outdoor-revolution.com](http://www.outdoor-revolution.com)

**\*\* Awnings will not be swapped because of broken poles\*\***

### Please read the following instructions carefully

**TIP:** Refer to the photograph to help when pitching your Momentum Cayman Tailgate.

- Please do not leave for your vacation without fully erecting and checking the contents of your awning.
- Ideally erect your awning for some period allowing it to weather.
- Please make sure that before erecting, that you site the awning on clear Level ground with no sharp objects underneath, and that all the zips are fully closed. (We recommend laying a groundsheet down to keep the awning Dry and clean)
- If you have any issues relating to pitching your awning please contact your dealer for instructions before going on holiday.
- Please note this awning is designed as a 'touring' awning and not for 'permanent pitch' use

### **IMPORTANT PLEASE CHECK YOUR EQUIPMENT**

(Make yourself familiar with the awning and its parts before attempting to erect)

#### Contents

Flysheet (or outer)

Fibreglass poles (in a separate bag)

Pegs (in a separate bag)

Outer carrying bag (with dimension details)

Stability Straps x 2

## ERECTION INSTRUCTIONS.

Outdoor revolution tents are all erected outer first

1. Lay the outer spread out on the ground.
  2. Open the pole bag and assemble the poles
  3. When the poles are assembled proceed to slide them carefully through the sleeve (taking care not to damage the sleeve) to the opposite end. Do this with both poles.
  4. Place the metal pin, which is on the steel ring into the bottom of the pole, one at once, along one side of the tent.
  5. Now take the opposite end of the pole and push steadily, while holding the opposite metal ring, when fully through put the other ring in the bottom of the pole. This now has formed the dome shape. Repeat this for all the poles (tip. It is useful for someone to get under the awning when forming the dome shape to take the pressure off the poles)
  6. You are now ready to peg the tent out. Firstly, make sure all zips are closed. Starting at one corner; peg all the pegging points around the tent. (Take care not to over tighten the tent, if a door zip is tight it is probably because the tent has been over tensioned)
  7. Guy lines can now be tensioned and pegged, please ensure in heavy weather that ALL guy lines are used. (Please note that failure to use all the lines may result in your tent being damaged)
  8. You are now ready to reverse your vehicle up to the Momentum Cayman Tailgate
- \*\*\*Note,** To attach the awning to your vehicle you will need to tension the back cowl of the tent by tensioning the elastic around the tunnel by using the toggles at the right and left bottom corner of the tunnel.

For more information on this procedure contact your dealer. (or visit our website at [www.outdoor-revolution.com](http://www.outdoor-revolution.com) to see the illustration of how it works.

**Please note these few points for trouble free camping.**

- a. **After use please you always dry and air the tent before packing away.**
- b. **Any dirt or stains can be removed by brushing or gently washing with warm water. DO NOT use detergents as this will destroy the waterproofing on the fabrics.**
- c. **We advise that you DO NOT cook or smoke in this tent; although the outer fabric is fire retardant treated it will still melt.**
