Here at Outdoor Revolution we strive to create the ultimate, most reliable and innovative products for our customers to ensure they experience the very best of the great outdoors. Established in 2003; Outdoor Revolution pioneered the lightweight awning and have since aspired to be the leading manufacturers in the Caravan and Motorhome Awning and Tent industry. We have used these years of learning to design, manufacture and provide the most desired products whilst offering unequalled value for money…

...Be Part of the Revolution!

The Revolution of Outdoor Living...

Over the years we at Outdoor Revolution have observed a dramatic change to outdoor living; the whole outdoor experience has never been as comfortable or luxurious as it is today. This has in turn challenged our designers to create the most reliable, easy to erect and luxurious products to match our customers’ expectations.

Our design brief is quite simple; to create a premium range of family tents using the best quality fabric and components available.

In the ensuing twelve years of developing lightweight awnings we have designed, invented and perfected some of the most technologically advanced in the market today. From patented Intelligent Frames with pressure relief valves, to protecting materials with SunPro UV coating and removable breathable groundsheets.

Here at Outdoor Revolution we recognise that our customers’ positive experience of using our products and brands are our major priority. Priding ourselves in selecting the most knowledgeable stockists and delivering outstanding customer service.

As the Pioneers and Innovators within this field, Outdoor Revolution are so confident in the reliability of any product with an Intelligent Frame that we offer a *LIFETIME GUARANTEE on the air tubes for most models with an IF Valve…

*NO other manufacturer has the confidence to offer this warranty!

Exclusive Acrylic Fabrics

Why buy an Outdoor Revolution Product?

**Vortex Ventilation:** Condensation is an inevitable occurrence but is minimised with inclusion of Vortex Vents. These conically engineered vents are strategically placed around the product and designed to provide optimum airflow.

**Tested Taped Windows:** The Taped Taped Window gives a contemporary feel and also reduce the glare from the sun. They create a calm and relaxed environment inside the product for you to enjoy. As we design all products with very large windows the Taped also provide a little more privacy.

**Endurance Storm Straps:** Strong and Durable storm straps with reflective strips. They are designed to give additional stability to the product and are moveable to ensure maximum protection against the elements.

**Zip In Curtains:** All Outdoor Revolution products have integrated curtains. Quick and easy to use and provide complete privacy when zipped in or can be quickly opened and stowed and allow complete enjoyment of the surrounding area.

**Seams:** All critical seams are taped to ensure maximum water resistance; we also have storm guards and rain gutters to protect seams and rainwater near doors.

Oxygen Air Frame

Dynamic Speed Value (DSV)

Taken from the marine industry this value has been used to its limits. This value is the fastest and most reliant value on the market. It is simple to use where inflation involves attaching a compressor and filling air into the Oxygen Air Frame. Due to our Air Frame being so light it is simple to use this value to inflate the Oxygen Air Frame.

Intelligent Frame Relief Valve (IF)

This relief valve measures the pressure inside the Oxygen Air Frame and releases any surplus air. As ambient temperatures vary and air expands inside the tube the valve releases the additional air to prevent the tube from over inflation providing you with peace of mind.

Lifetime Guarantee

The Oxygen Air Frame comes with a lifetime guarantee. In the unlikely event should any manufacturing faults be experienced with the Oxygen Air Frame during the time you own the product you can get in touch with us and we will resolve the issue.

Superior Premium Air Tube

Upgraded air tubes and double skinned robust premium casings for 2016 on all air models to give you ultimate confidence and peace of mind.

Superior Technology

Every Outdoor Revolution Tent goes through a rigorous testing process through every stage of development. At each stage of production our tents are inspected and must pass a strict factory quality control process before it is given the Outdoor Revolution quality seal of approval.

Rain Testing:

Our state-of-the-art rain testing facility subjects every new model to a thorough testing of 12 hours in conditions near equivalent to a tropical rainstorm.

Valve Testing:

Each individual DSV valve and pressure relief 18” valve is tested in our lab to ensure each valve is calibrated to the correct pressure tolerances before they are installed in each air tube bladder.

Air Tube Testing:

Every valve is installed by hand into its air tube bladder which is then inserted into a double skin outer material against the sun to ensure heat is absorbed, then inflated to the correct pressure and left on test for 72 hours after being certified and finally cooked into the finished tent.

Born of Aspiration...

*Terms & Conditions Apply.

See website for details.
“A stunning looking, fast erect airframe tent with every feature that you would expect in a modern family tent.”

...a new standard has been set!

INFLATES IN AROUND 8 mins
The O-Zone 6.0 XTR is the flagship model of the Outdoor Revolution Oxygen Airframe tent range; providing a huge amount of comfortable living, sleeping & storage space, creating a relaxing environment to make sure you enjoy your holiday in this truly home from home family tent.

Boasting many new and upgraded features this premium family tent is designed for larger families, sleeping up to six people. The spacious 6 person inner tent can be split into 2 separate compartments with a removable zipped divider. This also has 4 ample usable storage pockets. An optional 2 berth inner tent can be added to increase the sleeping capacity to 8 persons.

The upgraded cabin style doors provide a weather tight seal, keeping your pets safely on the inside and those nasty creepy crawlies on the outside. Two thirds of the front porch divider panel door can be zipped open, rolled and clipped back to open up the main living area on warm days... perfect for an evening of candle lit alfresco dining. An optional zip off windowed front panel with groundsheet enables the front porch to be closed off creating additional living space.

The stylish new maple leaf design zip down curtains provide versatile varied height privacy and can be neatly rolled down and stored in a convenient pouch. These, working together with the Tintz tinted windows, create a cosy yet pleasant and spacious internal ambiance.

This must have tent incorporates all the very best and latest technologies, design and features of Outdoor Revolution products to make this the most reliable and sought after tent on the market today. The pinnacle of the modern air frame tent world.

Canopy / Enclosed Canopy

The optional O-Zone Canopy zips on to the front of the O-Zone 6.0XTR tent, acting as a sun canopy whilst also providing additional usable exterior living space, giving added protection and shelter from the elements. The canopy is the perfect addition for an evening of candle lit alfresco dining on those mild summer nights.

**Material:**
- 150 Denier Double Rip Stop Fabric

**Frame:**
- Single Steel Collapsible Pole

**Additional features:**
- Storm Strap Attachment Points, trio stripe styling, quick draw guying.

**Weight:** 5kg

**Pack Size:** 78 x 15 x 15 (cm)

The Enclosed Canopy is a superb addition to an already beastly tent. It creates an additional sheltered area perfect for the storage of bikes, muddy shoes or camping furniture. (see the range of coordinating camping furniture in the accessory section)

The canopy zips on to the front of the O-Zone 6.0XTR and can either be opened up or secured off with the zip in door panel, adding even more protection and usable living space.

**Material:**
- 150 Denier Double Rip Stop Fabric

**Frame:**
- Single steel collapsible pole

**Additional Features:**
- PVC Side Windows, footprint groundsheet for covered porch area, storm strap attachment points, trio stripe styling, quick draw guying.

**Weight:** 12.5kg

**Pack Size:** 81 x 26 x 26 (cm)

The exclusive O-Zone 6.0 XTR Interior Roof Liner creates a relaxing home from home ambiance to the interior of the tent; whilst also providing a gentle shade from any roof glare in sunny conditions, the added layer of insulation helps to keep the tent cool on warm days, warmer on cool days and also creates an air pocket between the liner and the tent roof, beneficial to reducing morning condensation.

- Ozone 6.0 XTR
- Airedale 12.0
- Airedale 6.0
- Airedale 4.0
- Inspiral 5.2
- Inspiral 5.0

(Snug Rugs are also available to fit a wide selection of Outdoor Revolution Driveaway Awnings.)

The new Outdoor Revolution Jet-Stream compact high pressure 12v electric air pump has been designed specifically by us with a host of features not normally found in electric high pressure pumps for air awnings and tents.

Designed to make life a little easier when erecting and inflating your air product, the powerful Jet-Stream air pump cleverly allows you to pre-set the PSI cut off point, eliminating the danger of over-inflation*. Once the Jet-Stream pump reaches the set PSI level, it will automatically cut out. Integrated into the main body of the pump is a clever and convenient cable storage reel, allowing for the power cable to be retracted back inside the pump after use with an easy to use reel handle. The 12v power plug is then securely held in place within the rear recess clip. The stylish Jet-Stream pump comes complete with a flexible air hose, a selection of air mouse adaptors and is designed to fit most leading brands of air awning & tent inflation valves ports. The package comes complete with a handy storage/carry bag to safely store and protect the Jet-Stream pump when not in use.

A simply ‘must have’ accessory for all air awning and air tent campers out there. Why not check out the Outdoor Revolution website to see the powerful Jet-Stream air pump in action?

www.outdoor-revolution.com

- ADJUSTABLE PRE-SET PSI AUTO CUT OFF FEATURE
- POWERFUL INTERNAL HIGH PRESSURE PUMP
- DIGITAL LCD SCREEN READOUT INDICATOR
- CAN BE SET TO INFLATE TO A MAXIMUM OF 8 PSI

30.复古风格的地面钉
适于硬质地面，顺滑通过最坚硬的地面。确保在最坚硬的地面也能安全钉入。

Glow Pro
A heavy duty steel peg that glows in the dark and highly resistant against bending over pegline at night.

The Blue Diamond Nature Calls Portable Toilet offers perfect hygiene away from home as well as high quality construction and easy to use. The compact dimensions make this unit very easy to keep clean. The top part (15 Litres) and base part (20 litres) are connected using practical and robust plastic clips. The base part also has a very sturdy handle for convenient transport and disposal of waste water. The toilet also has a toilet roll holder incorporated into the design giving you somewhere to store the roll other than on the floor, thus keeping it clean and dry.
